Frontiers in Cardiovascular Science

Via WebEx

September 17, 2020 @ 4pm

Muscular Dystrophy and Dystrophic Cardiomyopathy: Muscle Membrane Integrity and Beyond

Daniel Michele, PhD - Professor, Department of Molecular & Integrative Physiology, University of Michigan

October 15, 2020 @ 11am

Immune Checkpoints in Atherosclerosis

Esther Lutgens, MD, PhD - Department of Medical Biochemistry Experimental Vascular Biology, Amsterdam University Medical Center

November 19, 2020 @ 2pm

CRISPRing Around the Mouse Genome

Joseph Miano, PhD - J. Harold Harrison, MD, Distinguished University Chair in Vascular Biology Medical College of Georgia at Augusta University

December 3, 2020 @ 1pm (Summit & Poster Fair)

3D Multimodal Imaging of the Human SAN Complex and Atrial Arrhythmogenic Fibrotic Hubs

Vadim Fedorov, PhD, Professor, Department of Physiology and Cell Biology, Ohio State University Medical Center

January 21, 2021

3D Multimodal Imaging of the Human SAN Complex and Atrial Arrhythmogenic Fibrotic Hubs

Vadim Fedorov, PhD, Professor, Department of Physiology and Cell Biology, Ohio State University Medical Center
Frontiers in Cardiovascular Science

February 18, 2021 @ 10am

Targeting Mitochondria for Heart Failure Therapy

Rong Tian, MD, PhD - Professor, Department of Anesthesiology & Bioengineering, University of Washington

March 18, 2021 @ 2pm

TBD

Junsu Kang, PhD – Assistant Professor, Cell & Regenerative Biology, University of Wisconsin

April 22, 2021 @ 2pm

TBD

Crystal Ripplinger, PhD - Professor and Vice Chair for Research & Administration, Department of Pharmacology, UC Davis School of Medicine

May 18, 2021 @ TBD

TBD

Elizabeth McNally, MD, PhD - Professor, Department of Medicine, Biochemistry and Molecular Genetics, Northwestern University
