

**UW Cardiovascular Research Center
Training Program in Translational Cardiovascular Science, T32 HL 007936
Application for Year 21 (Sept 1 2021 – Aug 31 2022)**

Postdoctoral Trainee Candidates

The UW Cardiovascular Research Center's **Training Program in Translational Cardiovascular Science (TPTCS)** announces the availability of postdoctoral fellow trainee positions at the University of Wisconsin-Madison for individuals whose research interests align with cardiovascular science. This is a federally funded (NIH/NHLBI) T32 training program. Postdoctoral positions are available for both post-MD and post-PhD candidates. Start dates for postdoctoral appointments are flexible beginning on or after September 1, 2021. Funding may be available for a second year depending on availability of funds and evidence of research progress.

The UW Cardiovascular Research Center (CVRC) houses a wide range of cardiovascular science research. The focus areas of this training program are heart failure/contractility, ion channels/arrhythmias and vascular biology/atherosclerosis.

Candidates must be nominated by a trainer in the TPTCS or faculty member affiliated with the CVRC. Conversely, trainees with interests in cardiovascular research may encourage their supervisors to apply to become a mentor/trainer in the program. External applicants interested in the program should contact prospective mentors listed on the TPTCS website along with other important information: <https://cvrc.wisc.edu/training-program/>.

Trainees must be US citizens or have been lawfully admitted for permanent residence to the US to be considered for this training grant. Members of underrepresented groups are especially encouraged to apply.

To apply for this program please provide the following information in this order as a single PDF document:

1. General Application Form
2. Curriculum Vitae
3. Career Plan statement, which includes past, current and proposed research as well as long-term career goals (1-2 pages)
4. Letter of support from a TPTCS trainer or faculty member affiliated with the UW CVRC (1-2 pages)

Please submit application materials in one combined pdf electronically to Katie Randall, UW Cardiovascular Research Center, kstrandall@wisc.edu by Friday, May 28 2021.

For further information, please contact the UW Cardiovascular Research Center at 608-263-2266, via email at katarzyna.borys@wisc.edu OR contact Dr. Gail Robertson, PhD, Professor of Neuroscience and Director of the UW Cardiovascular Research Center Training Program at 608-265-3339 or garobert@wisc.edu.
