Frontiers in Cardiovascular Science

**September 22, 2022**

*Targeting Epsins by Nanotherapy Regulates Lipid Metabolism and Promotes Cholesterol Efflux to Fortify Atheroma Regression*

Hong Chen, PhD - Associate Professor, Department of Surgery, Harvard Medical School

**October 21, 2022**

**4th Cardiovascular Research Summit**

*Focus on Cardiac Arrhythmias*

**November 17, 2022**

*Tissue-Engineered Platforms to Study Sexual Dimorphism in the Pathogenesis of Aortic Stenosis*

Kristyn Masters, PhD, Professor, Department of Biomedical Engineering, University of Wisconsin - Madison

**December 15, 2022**

*TBD*

Wei Guo, PhD, Assistant Professor, Department of Animal & Dairy Sciences, University of Wisconsin - Madison

**January 19, 2023**

*TBD*

Emilia Entcheva, PhD - Professor, Department of Engineering, George Washington University
February 16, 2023

TBD

Sandor Gyorke, PhD - Professor, Department of Physiology & Cell Biology, Ohio State University

March 23, 2023

TBD

Long-Shen Song, MD, MS, Professor, Department of Internal Medicine, University of Iowa

April 20, 2023

TBD

Carmen (Kika) Sucharov, PhD, Professor, Department of Medicine, University of Colorado Denver

May 9, 2023

TBD

Glenn Fishman, MD, Professor, Department of Medicine, New York University
